

## **TRADE PROMOTION PROGRAM IN TAJIKISTAN**

**“Development of the National Quality Infrastructure and Technical Regulations in Tajikistan”** is the topic of a workshop scheduled for October 17 in Dushanbe.

The main objective of this workshop is to create awareness in establishing a competent and credible National Quality Infrastructure in compliance with the WTO requirements and market demands. The draft Law on Technical Regulation and speeding up the process of its approval will be also discussed during this workshop.

The National Quality Infrastructure and the Technical regulations will be able to support and supplement the progressing socio-economic needs of the Republic of Tajikistan.

Representatives from the relevant Ministries and state agencies, international organizations, and private sector representatives will participate in the workshop.

Workshop is jointly organized by the International Trade Center (ITC) under the Trade Promotion Program in Tajikistan funded by SECO in cooperation with the EU funded Project on Standardization and the Ministry of Economic Development and Trade of Tajikistan.

This workshop will be conducted by Mr. Abdul Aziz Mat, ITC international consultant and Mr. Daniel Lachat, Team Leader of Project on Standardization.
